Dalí-

Synopsis

The infamous surrealist: A genius with a right to indulge in whatever lunacy popped into his head. Picasso called Dalí "an outboard motor that's always running." Dalí thought himself a genius with a right to indulge in whatever lunacy popped into his head. Painter, sculptor, writer, and film maker, Salvador Dalí (1904-1989) was one of the century's greatest exhibitionists and eccentrics - and was rewarded with fierce controversy wherever he went. He was one of the first to apply the insights of Sigmund Freud and psychoanalysis to the art of painting. Dalí brought extraordinary sensitivity, imagination, and concern for precision to bear upon submerged levels of consciousness. This lively biography presents the infamous Surrealist Dalí in full colour and in his own words. His provocative ideas are all here, from the soft watches to the notorious burning giraffe. And the fantastic phenomenon that was Salvador Dalí is grasped entire and placed in its various contexts.

Customer Reviews

This is a small coffee table book with a good collection of Dali's artworks. The text provides a basic, superficial overview of Dali's life and art. Neret's extensive use of extended quotes in the place of actually authoring content can be annoying. Overall, an acceptable introduction to Dali with a good timeline of his life and work at the end. Buy the book for its art, not its text content.

Great book , I love Dali and I feel it honors him well.

good set of images for the paints of Salvador Dali
