## Customer Reviews

This book is a comprehensive reference grammar/workbook for non-native speakers of English. If you are trying to choose between Azar's grammar books, the "Blue" book is intended for intermediate to advanced students, while the "Black" book is for beginning to intermediate and the "Red" for raw beginners. A grammar outline from the "Blue" book is also available without

exercises. The book is divided into chapters covering notorious grammar points, including: verb tenses, modals, passive voice, gerunds and infinitives, singular and plural, adjective clauses, noun clauses, connecting expressions, and conditional sentences. There are also appendices covering terminology, question formation, negation, articles, phrasal verbs, and error correction. On average, each chapter has 15-20 articles covering a single grammar point or contrast in detail. Atypical article starts with a grammar description, which is usually presented in the form of a diagram or chart, supported with several examples and explanations. Then follow several exercises, which mostly require the reader to write in the correct form of the word, although oral exercises are common, and there are occasional editing exercises. The book's strength is the clarity of its grammatical explanations, and Azar's simplified diagrams of verb tenses are now standard in many ESL classrooms. Students who crave grammar instruction will adore this book. They like to read the grammatical descriptions, and they get a sense of accomplishment from filling in all the blanks. But will this really improve their grammar? If a student is completely unaware of how a grammatical rule works, then this book will go a long way towards making the rule clear.
