Textbook Of Neonatal Resuscitation (NRP)

Synopsis

New 7th Edition! Powerful resource for interactive, simulation-based teaching and learning! The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). The course is designed to teach an evidence-based approach to resuscitation of the newborn to hospital staff who care for newborns at the time of delivery. New in the 7th edition! Text updated to reflect the 2015 AAP/AHA Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care of the Neonate. Two new chapters added covering post-resuscitation care and preparing for resuscitation. 140+ new full-color photographs replacing most line drawings.

Customer Reviews

The Neonatal Resuscitation Program has gone through many iterations since its inception. I thought the 7th edition of the textbook was the best version to date. It is easy to follow and memorable, with emphasis on teamwork, and special guidance in managing premature infants and special situations such as diaphragmatic hernia. I especially like the inclusion of LMA airways and a good detailed pictorial of how to insert them.

The book is well written. It goes through step by step of all aspects of neonatal resuscitation and is quite in depth for learners of all backgrounds. The book is decently long because of this depth.

There are great illustrations to facilitate learning. There are chapter summaries and practice questions with answers. If you have a decent medical background, this book is a quick read. Overall, it is a must read for anyone taking the NRP the first time. Seems overpriced though.

Great book ! Better price than AAP

a very good study guide for test for your NRP card

ExcelentActualiced information

I bought this book for a 'mandatory class' for work and it ended up being cancelled! I'm sure it'll be a good reference. And hopefully, since I bought the newest edition, it will still be the correct book when they decide to do the class.

Excellent reference text to have in your library.

Needed for work. Meets expectations.
