# Writing With Sources: A Guide For Students (Hackett Student Handbooks)

## Synopsis

Developed for Harvard University's Expository Writing Program, *Writing with Sources* describes the main principles and methods of integrating and citing sources in scholarly work, and provides cogent guidance on avoiding the misuse of sources. The second edition of *Writing with Sources* is updated throughout, and includes new material on the roles sources play in argument, on assessing the reliability of sources, and on attitudes about writing that can lead to plagiarism.

## Customer Reviews

Purchased for a class of mine and it came on time and in great condition! So the book may be very boring to read but as a college student it is very helpful when writing papers especially when there is different formats such as APA or MLA.

A masterpiece. A book, and a writer, that has decisively shaped my pedagogy as well as my own writing. I only wish I could track Gordon Harvey down and thank him for his decisive impact on my own students.

Great product, no complaints about this particular item. Highly recommended for anyone looking to purchase something like this. Would definitely purchase this again if I needed to. Haven't had a single problem thus far!

The students find it helpful, but not their favorite resource.

A very good guide for students who need some help with writing skills

Text used @ Harvard to this day, excellent reference, NOT one of those books you throw away or sell after class. Relevant at all academic levels and life after.
