The Complete Star Wars Encyclopedia

Synopsis

THE DEFINITIVE REFERENCE GUIDE TO A SPACE FANTASY PHENOMENONThe Star Wars universe, much like our own, is constantly expanding. In the ten years since the publication of the Star Wars Encyclopedia, a lot has happened in that galaxy far, far away: four new feature films, a host of official original novels, comics, video games, and more. Now, thirty years of information on all things Star Wars—“ranging from science and technology to history and geography, culture and biography to ecology and cosmology”—has been supplemented with an entire decade’s worth of all-new material. Abundantly illustrated with full-color artwork and photos, and now in a new three-volume edition to accommodate its wealth of detailed entries, the Star Wars Encyclopedia encompasses the full measure of George Lucas’s creation. Here’s just a sampling of what’s inside: a character portraits of both the renowned (Luke Skywalker, Queen Amidala, Darth Vader) and the obscure (Tnun Bdu, Tycho Celchu, Bib Fortuna) the natives and customs of planets as diverse as Tatooine and Hoth, Dagobah and Kashyyyk the rituals, secrets, and traditions of Jedi Knights and Sith Lords a timeline of major events in Star Wars history, from the Clone Wars and the inception of the Empire to the rise and fall of Anakin Skywalker and the invasion of the monstrous Yuuzhan Vong. Scrupulously researched and written by leading authorities Stephen J. Sansweet, Pablo Hidalgo, Bob Vitas, and Daniel Wallace, this landmark work is the must-have centerpiece of every Star Wars library.

Book Information

Hardcover: 1224 pages

Publisher: LucasBooks; Box Upd edition (December 9, 2008)

Customer Reviews

Just got this today First opinion is that it's nearly on par with the previous edition. The book covers All 6 movies gives a general overview of the Clone Wars. Then goes up to the last Legacy book Revelation along with a general overview of the Legacy era happening in the Dark Horse Comics that's still ongoing. At 1200+ pages the information is amazing though some of the pictures they included are recycled images from the previous edition of the Encyclopedia. My main gripe is the fact they'll give a entry but unlike the last edition there are no references in the Encyclopedia tracing back to the original source like the previous version did. Other than that very impressed at the price from and compared to what we paid for the original the book was well worth it and a great addition to the reference people who want a physical book to go back to. Otherwise I'd reference to the online encyclopedia that theforce.net hosts. This being an add on to my review now that I've had the opportunity to give the books a solid look through. All the above I hold to. Though this reference runs into the same issue that you'd expect from a series that is ever expanding. You can get the hint at what point in the series where the authors got there sources on things that are ongoing. A few of the entries seemed to go on and just abruptly hit the brakes and end right there while other entries don't go into enough detail. The most notable locations of history and character development that are glossed over that I wish would have got more of an explanation are the Legacy (Dark Horse Comics current ongoing series based 130 aby) and the Force Unleashed storyline. The Force Unleashed seemed to be lacking the most.
