The Answers are NOT provided in the workbook for pages 1-240 for mutliple-choice, fill-in the blank. Where are the answers?

I have read the reviews posted. The answers are not in the workbook. The workbook is meant to be used along with the Textbook which is purchased separately. I currently am taking a CNA course and we use both of the books. The RN that teaches the course if you take it will have the answers for the workbook in the teachers edition. The workbook doesn't follow the same printing as in the teachers book it list the answers for the workbook along with test questions. I agree that the workbook should list the answers but it doesn't. Upon searching through the textbook the answers for the workbook are easily found. Buying the workbook alone I would not recommend. You need to have the textbook to go along with it. It is a wonderful tool to use if you buy both.

Hi I am studying to retake the exam .. I let my license expire I just need to review and make sure I'm prepared, this is a wonderful product but I would love to have the answers .. Can someone help??

The workbook is a great complement to the text. This book offers many different styles of study to aid almost any form of learner. I was able to retain the information from the textbook much better by doing just a few workbook activities each chapter.

We use these study guides in class to review for our quizzes, I haven't taken the state exam but my teacher says they use very similar questions for the state exams.

very helpful in studying and getting ready for both the written and skills test. I would recommend this book for a reference.

the best study material!!it was really helpful during the class..i could even use it as a review material in preparation for the exams!

Im not a fan of working in this workbook. I could get along just fine without it in the class. The seller was just fine and got it to me in time, its just the book itself that is not very helpful..
